ILO Cataloguing in Publication Data

The designations employed in ILO publications, which are in conformity with United Nations practice, and the presentation of material therein do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country, area or territory or of its authorities, or concerning the delimitation of its frontiers.

The responsibility for opinions expressed in signed articles, studies and other contributions rests solely with their authors, and publication does not constitute an endorsement by the International Labour Office of the opinions expressed in them.

The reader accepts that the parties make this documentation available without warranty of any kind. The parties do not accept responsibility for the validity or completeness of any data including inaccuracies, errors or omissions or for any consequences arising from the use of such data. Neither the authors, nor the ILO or collaborating institutions shall be liable for damages or other claims and demands arising out of the use of the data.

Reference to names of firms and commercial products and processes does not imply their endorsement by the International Labour Office or any collaborating institution, and any failure to mention a particular firm, commercial product or process is not a sign of disapproval.

ILO publications can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. Catalogues or lists of new publications are available free of charge from the above address.

ILO Cataloguing in Publication Data

The designations employed in ILO publications, which are in conformity with United Nations practice, and the presentation of material therein do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country, area or territory or of its authorities, or concerning the delimitation of its frontiers.

The responsibility for opinions expressed in signed articles, studies and other contributions rests solely with their authors, and publication does not constitute an endorsement by the International Labour Office of the opinions expressed in them.

The reader accepts that the parties make this documentation available without warranty of any kind. The parties do not accept responsibility for the validity or completeness of any data including inaccuracies, errors or omissions or for any consequences arising from the use of such data. Neither the authors, nor the ILO or collaborating institutions shall be liable for damages or other claims and demands arising out of the use of the data.

Reference to names of firms and commercial products and processes does not imply their endorsement by the International Labour Office or any collaborating institution, and any failure to mention a particular firm, commercial product or process is not a sign of disapproval.

ILO publications can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. Catalogues or lists of new publications are available free of charge from the above address.

ILO Cataloguing in Publication Data

The designations employed in ILO publications, which are in conformity with United Nations practice, and the presentation of material therein do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country, area or territory or of its authorities, or concerning the delimitation of its frontiers.

The responsibility for opinions expressed in signed articles, studies and other contributions rests solely with their authors, and publication does not constitute an endorsement by the International Labour Office of the opinions expressed in them.

The reader accepts that the parties make this documentation available without warranty of any kind. The parties do not accept responsibility for the validity or completeness of any data including inaccuracies, errors or omissions or for any consequences arising from the use of such data. Neither the authors, nor the ILO or collaborating institutions shall be liable for damages or other claims and demands arising out of the use of the data.

Reference to names of firms and commercial products and processes does not imply their endorsement by the International Labour Office or any collaborating institution, and any failure to mention a particular firm, commercial product or process is not a sign of disapproval.

ILO publications can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. Catalogues or lists of new publications are available free of charge from the above address.

ILO Cataloguing in Publication Data

The designations employed in ILO publications, which are in conformity with United Nations practice, and the presentation of material therein do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country, area or territory or of its authorities, or concerning the delimitation of its frontiers.

The responsibility for opinions expressed in signed articles, studies and other contributions rests solely with their authors, and publication does not constitute an endorsement by the International Labour Office of the opinions expressed in them.

The reader accepts that the parties make this documentation available without warranty of any kind. The parties do not accept responsibility for the validity or completeness of any data including inaccuracies, errors or omissions or for any consequences arising from the use of such data. Neither the authors, nor the ILO or collaborating institutions shall be liable for damages or other claims and demands arising out of the use of the data.

Reference to names of firms and commercial products and processes does not imply their endorsement by the International Labour Office or any collaborating institution, and any failure to mention a particular firm, commercial product or process is not a sign of disapproval.

ILO publications can be obtained through major booksellers or ILO local offices in many countries, or direct from ILO Publications, International Labour Office, CH-1211 Geneva 22, Switzerland. Catalogues or lists of new publications are available free of charge from the above address.
